

For Immediate Release

Hardy E-Scale™ Bench Scales for The Connected Enterprise™
E-Scales designed for applications in dry food processing, pharma and CPG

SAN DIEGO, CA, May 21, 2018 —Hardy [E-Scale™ Bench scale series](#) delivers direct connection to Rockwell Automation's The Connected Enterprise™ with an IIoT-ready (Industrial Internet of Things) scale base. It includes an integrated Hardy weight processor for direct industrial network connection via EtherNet/IP®, Profibus-DP®, and Modbus® protocols.

Hardy E-Scales are ideal for dry food processing, consumer packaged goods, pharmaceutical manufacturing, laboratory and industrial installations. Applications include piece count and portion control, minor ingredients or hand-add applications, small batch reactor applications for pharmaceuticals or chemical/biochemical, machine filling and dispensing, conveyer weighing and more.

Designed for ultimate flexibility, the E-Scale comes in a variety of configurations with a built-in interface for direct connection to a PLC, PAC, DCS or PC. The E-SCALE-6500 is an IIoT-ready scale with integrated weight processing and communications. The E-SCALE-6600 series is capable of powering up to 20 scales daisy chained up to 50 ft. from beginning to end providing a Single Ethernet connection back to the PLC/PAC or PC – No additional power, routers or network switches are required.

All E-Scales come standard in 12" x 12" and 24" x 24" sizes and range in capacity from 33 lbs. to 1300 lbs. (15 kg to 600 kg). With its built in communications, E-Scales eliminate possible failure points and the cost of extra splice-boxes and other network components.

Bench scale covers are stainless steel for superior durability, and bases have no bearings, spirit levels or moving parts that can be damaged or wear out. Hardy E-Scales come standard with Hardy Process Toolbox features, including: Waversaver®, C2®,

Webserver, and Rockwell Automation integration tools such as Faceplates and Add-on-Profiles.

About Hardy Process Solutions (A Roper Technologies Company)

Hardy Process Solutions has established itself as an industry leader in the weighing automation world by providing highly accurate precision measurements, while seamlessly integrating process weight signals into a Rockwell plant control system. At Hardy, we believe that industrial weighing solutions should be EASY to engineer and operate. We believe that simplicity delivers the LOWEST TOTAL COST to own. That's why our solutions are EASIER to install, integrate, commission, diagnose and maintain in all four areas of the supply chain.

1. STOCK - accurate weight and level measurement/monitoring
2. MAKE - adaptable weight & rate material feed measurement/control
3. PACK - for robust rate & weight feed measurement/control
4. SHIP - off-the-shelf static and dynamic check weighing solutions

Want MORE PRODUCTIVITY at the LEAST TOTAL COST to own? Call Hardy to discover how Today! Visit the Hardy Process Solutions website at www.hardysolutions.com, call 858-278-2900 or email hardyinfo@hardysolutions.com.
