

Hardy Process Solutions Wishes You a Happy and Safe Holiday Season and a Prosperous New Year!

Hardy Offices will be closed Dec. 22nd through Dec. 26th and Jan. 2, 2017. We will be back in the office on January 3rd.

### NEW! Hardy Dynamic Checkweigher Series

We previewed the new Hardy Dynamic Checkweigher Series at both Pack Expo and Automation Fair, where it was an instant hit. Hardy's Dynamic Series of checkweighing machinery is built using off-the-shelf components, with software based on a Rockwell Automation's Logix platform, providing a standardized open source architecture that is flexible enough to meet both current and future control needs.

- First software-based Checkweigher, customizable to meet ever-changing production needs
- Made with premium components: Allen Bradley PLC and HMI controls inside
- Easily integrate into larger factory environments with open source code and data
- Future proof with plenty of spare I/O to accommodate a myriad of options

### Consumer Packaged Goods Brochure

Hardy understands the challenges that Consumer Packaged Goods (CPG) manufacturers face and we have developed a variety of industrial weighing solutions that either meet or exceed our customers' challenges, driving Overall Equipment Effectiveness (OEE) up, no matter where they are located in the manufacturing process.

Solutions assist you in effectively assessing the priorities and criticality of these challenges and develop strategies to effectively overcome them.

### Hardy Rate & Weight Feeder Controllers

Hardy's HI 4060 is a compact, single-feeder, closed-loop rate controller for use in a variety of applications, including auger, belt and vibratory-based feeders, converting them from volumetric to gravimetric. Plug-in Loss-in-weight Feeder Control (FC) modules contain field proven algorithms which automatically calculate and adjust tuning parameters required to maintain desired loss-in-weight flow rates.

- First with both Weight/Rate Feed Control
- Embedded Algorithms Manage Feeds
- Auto Fills & Management of External Disturbances
