RE: European Union REACH Regulation

Hardy Process Solutions is committed to demonstrating the highest standard of global environmental management. We embrace this as a core value and an integral part of all operations and seek continual improvement of our environmental management system and performance.

Our dedication is demonstrated by our compliance efforts as they apply to the following European Union regulation:

**Restricted substances**

Hardy Process Solution's products meet the substance restrictions specified in Annex XVII of Regulation (EC) No. 1907/2006 (REACH).

**Candidate List substances**

Hardy Process Solutions continues to interact with our suppliers to collect information on our finished products and determine whether our products contain any of the substances included in the REACH Candidate List that was last updated on 16 January 2020 (see <http://echa.europa.eu/candidate-list-table> for the current list) above a concentration of 0.1% weight by weight.

Please send any additional inquiries regarding Product Environmental Compliance to your Hardy Account Manager.

Sincerely,

A handwritten signature in blue ink that reads "Debra Lawson". The signature is fluid and cursive, written in a professional style.
