

## Declaration of Operating / Storage Conditions HI 4000 Series Products

**Model:** HI 4000 Series Product Line

**Issue:** Operating temperature and storage temperature range.

**Operating Temperature Range:**

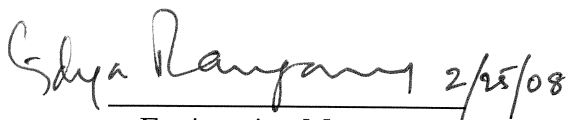

The HI 4000 Series Product instruments are UL/CUL rated from -10 to +40degC. Operation outside of this range violates the UL/CUL safety certification of the product and should not be attempted.

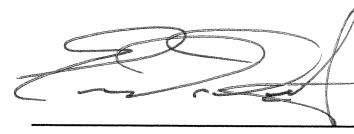

**Storage Temperature Range:**

Product: The HI 4000 Series Product is capable of storage at -40 to +85degC.

Display: The HI 4000 Series Display Panel is capable of storage at -30 to +70degC.

Storage outside of these conditions will likely damage the LCD glass and/or other components and will void the product warranty.
