

For Immediate Release

NEW HARDY HIBSD BENCH SCALE WITH DISPLAY

Bright, Integrated Backlit Display Enables Easy Operation for All Weighing Applications

San Diego, CA, August 3, 2022—[Hardy Process Solutions](#) has announced a new line of bench scales that include an integrated display for easy operation. The new HIBSD Washdown Bench Scales offer simplicity and robust performance for light-duty industrial weighing applications. With the integrated 7-inch backlit display and push-button zero and tare functions, it's easy to operate for all kinds of scale weighing applications. The HIBSD Bench Scale is ideal for industrial manufacturing, food, beverage and chemical sectors.

The HIBSD bench scales are ideal for checkweighing (product inspection), piece and portion weighing and counting functions. They are also perfect for adding minor ingredients or hand-ads in batch processes. A special mode for animal weighing accounts for animal movement to determine an accurate measurement. The stainless-steel platter make it easy to washdown

“Hardy has built this product with the user in mind for every function,” said Jeff Moen, product manager. “The backlit display has large, easy-to-read characters with a Zero and Tare button on the display. A 72-hour battery backup allows operation for multiple work shifts before recharging. Checkweighing functions are built-in for easy product inspection. It’s genuinely easy for users to set up and maintain.”

Hardy HIBSD Bench Scales are washdown-rated with stainless steel platters. They come with aluminum, environmentally sealed, IP65 load cells that have an ADC response rate of 100 ms. All Hardy HIBSD Bench Scales come standard in either 12"x14" with a 15-inch indicator column or 16" x 20" with a 33-inch indicator column. They range in capacity from 33 lbs – 330 lbs (15 kg to 150 kg). They are available with either a painted or stainless-steel frame with adjustable height feet and a level indicator.

About Hardy Process Solutions (A Roper Technologies Company)

Hardy Process Solutions has established itself as an industry leader in the weighing automation world by providing highly accurate precision measurements, while seamlessly integrating process weight signals into a Rockwell plant control system. At Hardy, we believe that industrial weighing solutions should be EASY to engineer and operate. We believe that simplicity delivers the LOWEST TOTAL COST to own. That's why our solutions are EASIER to install, integrate, commission, diagnose and maintain in all four areas of the supply chain.

1. STOCK - accurate weight and level measurement/monitoring
2. MAKE - adaptable weight & rate material feed measurement/control
3. PACK - for robust rate & weight feed measurement/control
4. SHIP - off-the-shelf static and dynamic check weighing solutions

Want MORE PRODUCTIVITY at the LEAST TOTAL COST to own? Call Hardy to discover how Today! Visit the Hardy Process Solutions website at www.hardysolutions.com, call 858-278-2900 or email hardyinfo@hardysolutions.com.

About Roper Technologies

Roper Technologies is a constituent of the S&P 500 and Fortune 500. Roper has a proven, long-term track record of compounding cash flow and shareholder value. The Company operates market leading businesses that design and develop vertical software and application-specific products for a variety of defensible niche markets. Roper utilizes a disciplined, analytical, and process-driven approach to redeploy its excess free cash flow toward high-quality acquisitions. Additional information about Roper is available on the Company's website at www.ropertech.com.
