Hardy Lift Deck Floor Scales
Designed for Use In Hazardous Areas

Applications
PROCESS WEIGHING
- Inventory Management
- Batching & Blending
- Dispensing & Filling
- Shipping

Features
THE HARDY PROCESS TOOLBOX
The Hardy Process Toolbox is a set of productivity tools that delivers value across process weighing functions. Each tool saves time, increases accuracy, improves efficiency or reduces risk in your process weighing applications.

Electronic calibration without test weights  C2®
Weighing system monitoring and troubleshooting  IT INTEGRATED TECHNICIAN
Hardy ADVANTAGE® Load Sensors
- Factory Matched, Stainless Steel with True Hermetic Seals; No Cornering

Capacities Range from
1,000 to 5,000 lbs

Hazardous Area Certification
- Class I, II, III, Div 1 & 2 certification

Top Access Summing Card
100% End Loading

Hardy Process Solutions now has a line of lift-deck, hazardous area wash down scales to meet the needs of the most demanding applications.

These process weighing scales combine best-in-class durability with Hardy’s Process Toolbox features: weightless calibration (C2®) and operator diagnostics (INTEGRATED TECHNICIAN®). Hardy Lift Deck Floor Scales offer manufacturers multiple ways to reduce their maintenance costs and downtime.

DESIGNED FOR ANY ENVIRONMENT
Hardy Lift Deck Floor Scales are designed and built for industrial environments, including heavy washdown and hazardous areas, with Class I, II, III, Div. 1 & 2 certification. Incredibly easy to install and use with the latest advancements in weighing technology. Just level the deck, attach the included twenty-foot cable, calibrate (if a C2® compatible instrument, set your reference), verify and begin weighing.

Available in three sizes from 36 x 36 inch to 60 x 60 foot in 1, 2, and 5 thousand pound capacities. Hardy Lift Deck floor scales have two handles on the decks for easy lifting to facilitate installation and cleaning.

C2® ELECTRONIC CALIBRATION
With a Hardy weight controller, C2® load sensors enable fast, accurate, electronic calibration without test weights at just a push of a button. The easy-to-use C2® system reduces downtime for installation and repairs and eliminates test weight related safety risks.

INTEGRATED TECHNICIAN®
Each scale has built-in INTEGRATED TECHNICIAN® (IT) circuitry. When coupled with a Hardy controller, the scale provides diagnostic and troubleshooting tools that read individual weights and voltages to aid you in isolating problems. Together, Hardy C2® and IT eliminate the need to open the junction box. The junction box remains sealed reducing the risk of sparks in hazardous areas.

HERMETICALLY SEALED LOAD SENSORS
The heart of any scale is the load sensors. All Hardy Lift Deck floor scales come standard with four matched Hardy ADVANTAGE® IP69K stainless steel, true hermetically-sealed sensors — sealed at both the gauging area and cable entry for long life. All are matched and calibrated for mV/V and mV/V/ohm. This eliminates the need for corner adjustment and potentiometers in the junction box, allowing a sensor to be replaced without calibration. Hardy ADVANTAGE® sensors use a blind hole technique ensuring the load is applied at a precise location to provide an accurate reading, weighment after weighment.

RUGGED, LOW PROFILE DESIGN
Rated for 250,000+ load cycles under normal loading conditions,* these lift deck floor scales are built to last. With a deck height of only 4.2 inches and 100% end loading, Hardy Lift Deck Floor Scales feature a hydraulic system that enables one person to easily lift the deck for cleaning. Durable rubber-based feet are height adjustable from below the platform for easy leveling.

SPECIFICATIONS

Platform
- 0.25 inch thick smooth or safety tread deck

Height
- 4.2-4.4 inches (10.6 -11.2 cm) adjustable 0.2” or 5 mm

Accuracy
- Combined Error: 0.02%
- Repeatability: 0.01%

Overload Capacity
- 100% of rated scale capacity

End Loading
- 100% of rated scale capacity

Cable Length
- Platform to Instrument - 20 feet
  (for longer cable lengths, contact the Factory)

Construction
- Stainless Steel - Type 304

Duty Cycle
- +250,000 load cycles under normal loading conditions*

Load Sensor
- IP69K rating for washdown applications
- C2® or manual calibration
- Stainless Steel, hermetically sealed
- blind hole loading

Summing Card Enclosure
- NEMA 4x stainless steel

Power Rating
- 5 VDC, Class 2 source, max. 50 mA

Hardy 6011IT Summing Card
- 4 Individual load sensor terminal blocks with integrated cable glands
- INTEGRATED TECHNICIAN® circuitry
- For Class I and II, Division 1 Hazardous (Classified) Locations, and Class 1, Zone 0 and 2 Groups IIC, Zone 20 and 22 Groups IIC, power must be supplied through intrinsically safe barriers per control drawing 0594-0010

Scale Excitation
- 5vdc +/-5%

Certifications
- UL, CUL, CE • RoHS and REACH Compliant
- Hazardous Areas: Class I, Division 1, Groups A, B, C, D, T4; Zone O, Group IIC, T4; Division 2, Groups A, B, C, D, T5
- Class II, Division 1, Groups E, F, G, T4; Zone 20, Group IIC, Division 2, Groups E, G, T5
- Class III, Division 1, T4; Division 2, T5

Warranty
- Two Years
